## B58 Wines hosts launch event at its Beaulieu winery

**B**58 Wines invited a selection of guests to the launch of its very first wine collection, at its home in Beaulieu in the New Forest. The event included a first look and introduction to this new range of still wines from the New Forest, including lunch at the nearby Lime Wood hotel in Lyndhurst, with guests given the opportunity to see behind the scenes at the brand new winery, tour the vines under tunnels, meet the team and taste the very first red, white and rosé wines.

Owner and sustainable fruit farmer Sandy Booth (owner of the New Forest Fruit Co) and partner winemaker Guillaume Lagger shared with those attending the story and journey that led down the path to create something new and different. Sandy draws on his extensive knowledge and experience in fruit farming to apply the same growing practices in tunnels, producing grape varieties not usually successfully grown in the UK.
